MADE-TO-MEASURE SEALING

OFFER

Our offer is based on an extensive stock of seals used throughout the broadly understood industry and beyond. Turned seals (made to measure) include: cylinder seals, rotary and piston seals, resistance, guide and scraper rings. All these seals are manufactured by us. We recommend that you familiarize yourself with the dedicated directories created for each group.

PISTON ROD SEALS

DESCRIPTION

Piston rod seals are seals made of hard materials of high hardness (NBR, PU, FPM, VMQ, EPDM) measured on the Shore scale. Rod seals are used to seal hydraulic fluids.

APPLICATION

- pistons and piston rods
- hydraulic cylinders

SEALING PROFILES

Our technology allows us to bore seals of various cross-sections, meeting the customer's requirements. Profiles for piston rod seals are shown below. In order to find out about the exact parameters of the material used, please refer to the table available on the basis of seals in our offer.
